

GE Services

Your ecosystem

POWER

Designed to provide you with our fastest possible response leveraging our proactive 24/7 remote capabilities. Helping you maximize uptime, staff satisfaction and patient care.

With the Power pack you will benefit from our fastest priority service, guaranteed within **30min** remotely & within **4 hours on site**, to maximize your operational efficiency and achieve up to **99% uptime**.

Instant access to our expert team of dedicated remote engineers in your country with **advanced remote diagnostic and repair capabilities**.

Shift unplanned downtime into planned service events with **OnWatch Proactive Monitoring** (MR/CT/Int/Mammo).

You will be entitled to take advantage from our latest **Predictive Services** capabilities like Tube Watch to predict failures before they occur.
